

UFPR-FGM Datasets – License Agreement

The *MotorcycleMake* and *MotorcycleModel* datasets contain vehicle images created from the RodoSol-ALPR dataset, a widely adopted Brazilian ALPR dataset. These images serve the purpose of supporting research endeavors focused on the development and assessment of algorithms for Fine-grained Motorcycle Classification (FGMC). They are **exclusively** made available to academic researchers affiliated with educational or research institutes **for non-commercial purposes**.

Terms and Conditions

The use of either of the datasets is subject to the following terms and conditions:

- These datasets are provided “AS IS,” without any express or implied warranty. Although every effort has been made to ensure accuracy, the authors do not take any responsibility for errors or omissions;
